**Why should I take a workshop?**

1. Through games, activities, or during unstructured play, you will learn ways to develop the fundamental movement skills.
2. It will help ensure, while a child is in the care of your program, that they are learning and having fun!
3. These workshops will teach you how to instruct, observe, and correct the fundamental movement skills, and give you an opportunity to practise teaching these skills.

An 8 hour workshop provides an in-depth, comprehensive introduction to the fundamental movement skills and the core-competencies of the NCCP, and includes significant hands on activities, or while the 3 hour workshop covers similar information in a condensed format and is designed for participants with previous knowledge of the fundamental movement skills, coaching, or working with children ages 6 through 9. All participants will receive a certificate indicating their completion of the course, and will be entered into The Locker, the NCCP database, for access to resources and tools made available by the Coaching Association of Canada.
